Maximum Marks	 	5 Marks

Reusable Components / Modules

S.No	Code Quality Parameter PDF	Description PDF	Followed (Yes/No/Partial) PDF	Remarks PDF
1	Consistent Indentation 	Uniform spacing/tabs used throughout the code 	Yes	Standard PEP8 (4 spaces) used for Python files.
2	Proper File Structure 	Files and folders are logically organized 	Yes	Segregated into app , templates , and static folders.
3	Meaningful Variable Names 	Variables reflect their purpose clearly 	Yes	Used descriptive names like story_prompt , image_panel .
4	Function/Method Names 	Functions are descriptively named 	Yes	Named according to action, e.g., generate_comic() .

S.No **	**Code Quality Parameter PDF	**Description PDF**	**Followed (Yes/No/Partial) PDF**	**Remarks PDF**
5	Code Comments 	Inline and block comments explain logic 	Yes	Added docstrings for all major FastAPI routes.
6	Modular Design 	Code is split into reusable functions/modules 	Yes	API calls and PDF logic are in separate utils files.
7	No Redundant Code 	Duplicate or unused code is removed 	Yes	Cleaned up unused imports and test scripts.
8	Error Handling 	Exceptions and errors are handled gracefully 	Yes	Try-except blocks implemented for API timeouts.

Overall Code Quality Assessment

	Component / Module Name PDF	**Language / Technology PDF**	**Where Reused PDF**	**Reusability Level PDF**
	gemini_api_client.py	Python / HTTP Requests	Used for all text/story generation tasks	High
	stable_diffusion_client.py	Python / REST API	Used for generating all panel images	High
	pdf_compiler.py	Python / FPDF	Core export engine, reusable for any PDF layout	High
	base_layout.html	HTML / Jinja2	Parent template for UI consistency	Medium

2. Coding & Solution

Team ID	UNM1401VisionTech
Project Name	ComicCraft - AI Comic Story Creator
Maximum Marks	5 Marks

Solution Summary

	Comments PDF	
	Highly organized and follows MVC-like structure.	
	Code is clean and easy for new developers to understand.	
	Utility functions can be extracted for other AI projects.	
	Good inline comments; API docs available via Swagger.	
	4.5	Ready f

3. No. of Functional Features Included in the Solution

Date	30 September 2026
Team ID	UNM1401VisionTech
Project Name	ComicCraft - AI Comic Story Creator
Maximum Marks	5 Marks

Functional Features Overview

	https://github.com/UNM1401VisionTech/ComicCraft-AI *(Update this with your actual link)*					
	Python, HTML5, CSS3, JavaScript					
	FastAPI, Jinja2, FPDF					
	AI Story Generation via Gemini, Image generation via Stable Diffusion, UI for prompt input, PDF Export Engine.					
	User authentication (Login/Signup), Cloud database integration for saving history.					
	1. Clone repository. 	2. Run pip install -r requirements.txt .	 	3. Set API keys in .env .	 	4. Run uvicorn main:app --reload .

Feature Summary

	Criteria PDF	**Status (Yes/No) PDF**
	Code is modular and organized into functions / classes 	Yes
	Meaningful variable and function names are used 	Yes
	Code includes comments / documentation where necessary 	Yes
	Error handling is implemented for critical operations 	Yes
	The application runs without critical errors 	Yes
	Code is committed to a version control repository 	Yes
